Posts: 7 I'm eczema cured. My brother is psoriasis cured. Not advertising.
Just want to clarify this with the moderators.

[View Gallery](#) My picture is attached.
My name is Edwin Casimero

I want everyone to learn how it is done.

Nutritious Diet: Raw Paleolithic Diet - raw fruits, fatty raw animal food, raw vegetables
Pollution avoidance: Nothing on skin that cannot be eaten, no shampoo, no soap, no toothpaste
Detox Protocols: Chiropractics, Colon Cleanse, Kidney Cleanse, Liver Flushes, VCO detox, Orange Juice Fasting, Lung Cleansing and more.

Ask me your questions. I will answer here.
I will not advertise my website moderators, so please do not suspect me of advertising.

I only want people to be cured right here right now.
There is no financial gain for me to do this.
I just want people to be cured just like me, my brother, my children, my new friends
who I also helped.

I have been cured since 2006.
I stay cured.
And I'm getting healthier each year.
Ask me your questions. I will answer here.

Edwin,

welcome to these boards. You are welcome to stay but we have a very strict no advertising rule here. If you want to help the members you post details in open forum. I have deleted some of you other posts and if you advertise again you will be banned.

This is nothing against you, but protects our members from scammers.

Roger

Thanks Roger.
Given time, I will post everything here.
Your forum gets the credit.

Look at the picture of Michelle Ang.
She just followed my instructions and LOGIC and she cured herself!

Basically, I'm on a mission to teach the world how to cure psoriasis, cure eczema...
right here, right now. There is no magic, only sound logic. Proven science that works

and is repeatable by anyone willing to do so.

If you are interested in me elaborating on the cure protocol I will teach it to you.

Eczema Cure and Psoriasis Cure Protocol

(What's in a name? Mine is eczema, my brother's is psoriasis)

Many years have passed, many new things learned, many new tools available. All striving to be safe, cheap, effective, repeatable... all the trademarks of TRUE CURES.

Step I - Cure Your Mind

Eczema and Psoriasis is curable, the evidence is overwhelming, we the many who are cured are cheering you on. Yes you are next, but it will require a big shift in your thinking. Old paradigms will be torn down. You are sick because the old existing paradigms have failed you. What are these failed paradigms?

- * Western Medicine (greed): the drug companies, the organized hospitals, allopathic medical doctors, yes those doctors in the nice suits and charging exorbitant sums of money and say your condition is incurable and the only thing they have for you are steroids, corticosteroids and whatever drug suppressing, health destroying drug where they make commissions.

- * Television and advertising: Television is a mind numbing, consumer brainwashing tool to sell you things you do not need. You are sold personal care products that pollute you every day of your life. You are sold household chemicals that pollute you every day of your life. Turn it off.

- * The government food pyramid and your supermarket: The government food pyramid is absolutely wrong. It is based on food industry lobbying and has no basis on the reality of human needs. The supermarket sells what is profitable for them, not what is the most nutritious for you.

- * The paradigm of cooking: all forms of cooking, chefs, restaurants, appliances are detrimental to your health. Only raw culinary school counts. All the restaurants, fast food chains, commercial foods, junk foods are all a minefield of pollution and only bring unhealth.

- * The Cholesterol MYTH! - Eat RAW FATS!

- * The Fiber Myth! - Artificial Fiber is detrimental to health! It is fruit and raw fat that makes bowels move.

Step II - Pollution Avoidance

What is Pollution?

From the book of Hulda Clark: The Cure for All Diseases,

"Pollutants are all the dead things around us that should not get into your body because they interfere with its work. As long as they don't penetrate your tissues, they won't interfere, like plastic eyeglasses and clothing. But if they are invasive, your body must fight to remove them.

Pollutants can invade your body via the air you breath, the foods and beverages you eat, and the products you put on your skin."

The biggest tragedy is not recognizing when a pollutant is harming you.

Dr. Hulda Clark has specific classifications in her book: solvents, metals, mycotoxins and physical toxins. See page 36 of her book The Cure for All Diseases.

I like identifying the pollutants via a different classification:

- * Soaps and detergents we put on our body.
- * Detergents and chemicals we wash our clothes with.
- * The air we breath, at home, at work, in transit.
- * Things we put on our skin
- * Things we eat
- * What we wear
- * Our home.
- * Our work.

However you want to classify it, these pollutants are deadly and they chip away at our immune system everyday.

Step III - A return to the original natural design: Raw Paleolithic Diet

Eat only: Raw organic / wild fruits. Raw organic / wild ocean fishes. Raw organic / wild land animals. Very few raw organic vegetables with the noted exception AVOID all nightshades: tomatoes, potatoes, egg plants, bell peppers.

Google for: Raw Paleolithic Diet

There are many practitioners.

Step IV - Detox Protocols

Powerful, true detox protocols that will clean your internal organs which will continue to make you clean and healthy.

All eliminatory and cleansing organs must be cleaned of debris and junk. You have your car serviced for a change oil, change of brake fluid, change of filters on a regular basis. Same thing with humans, many times we need mere regular maintenance and

fixing.

Is this knowledge absent from your regular doctor, hospital or western medical school? Of course this is absent. Western medicine is all about drugs and surgery. Western medicine is also called allopathic medicine or the suppression of symptoms. The knowledge I convey in the next web links have nothing to do with drugs, surgery or symptom coverups. This knowledge belongs to a different paradigm totally alien to western medical philosophy or profit orientation.

The fault really lies in thinking that western allopathic medicine is the one and only possibility when in fact, it is obviously not the case. Western medicine has a monopoly hold on mass media outlets like radio, tv, magazines and newspapers because of advertising money. Therefore, if your exposure is only the mainstream media, you naturally think the only kind of medicine is western pharmaceutical medicine.

I welcome you to a knowledge of possibilities, most are off the shelf and readily available in your country, or can be acquired through international parcel delivery.

- * Chiropractic Treatments
- * Colon cleansing
- * Kidney Cleansing
- * Liver Cleansing
- * Parasite Cleansing
- * Dental Cleansing
- * Skin Cleansing
- * Lung Cleansing
- * Intestinal Cleansing

There are probably more out there, but it is these methods that I am personally familiar with and I definitely know they work. They are part of the tools our family uses and I'd like to share them with you.

Step V - Anti-Microbial Guide

Some eczemas and psoriasis have a microbial angle. These may be cleaned up by the safest and most powerful antimicrobials which just happen to be natural extracts as well. There's virgin coconut oil, oregano oil, olive leaf extract, electric zappers, pyroenergen, beam ray frequency generators.

Step VI - Nurturing Guide to Health

Humans need tender loving care. This is how it is done.

- * Clean Fresh Air
- * Direct Sunlight
- * Pure Water
- * Sleep and Rest
- * Exercise
- * Thoughts & Emotions
- * Sex

Step VII - Teach others

You must teach others. I must stress that for you to be truly thankful is you at least teach someone, share this knowledge with a fellow sick human. Never forget that you

were once sick yourself. He needs your help even without asking for it. The next time you see an eczematic or a psoriatic man, approach him, tell him about this website and give him your name that you are an ex-eczematic, you are an ex-psoriatic, you are a living example of the cured.

*** Pictures attach show the progression of my eczema in 2005 to 2006.

RAW PALEOLITHIC DIET IS A MUST

- raw fatty organic / wild / pasture fed animals (chicken in any form is bad for blood type B)
- local raw organic fruits in season
- raw organic juiced vegetables (absolutely no nightshades)

no grains, no dairy, no legumes.
rare, lightly seared fatty meats is acceptable on transition.

There is a nice short video on paleolithic diet

http://www.youtube.com/v/uCFZoqmKf5M&rel=0

(I did not make this video, I do not think that video advertises anything)

Diet is 50% or more of the battle. Your paradigms will have to change. Immensely. There is no escape.

I once thought I could get away with just detoxing.

It does not work that way.

Going back to the original human diet gives best results.

I never thought I could be this healthy today.

I'm 40 this year and I feel cheated I didn't know about the original human diet. Today I feel like I'm younger than 25. But all those quality years I missed...
