What would you want in an Eczema Cure book?

I have finally set my time to write an eczema cure book.

I want it the eczema cure book to end all eczemas around the world.

I have the gall to say this because I am eczema cured and so are all my children, and I've helped many people in Manila and around the world. Just via my websites.

So it's time to write a book for those who have no patience clicking around on the web.

My question is: What would you like to see in an eczema cure book?

How can I make it such that you will benefit from it and be cured 100% ?

I know a lot about eczema cure and psoriasis cure.

Re: What would you want in an Eczema Cure book?

Frankly, I'd want the cure.

I'd want evidence that it works (not just anecdotal), information on how/why it works, on potential risks and side effects, case studies (real ones), data - in a

OFFLINE 

nutshell, a medical study that's been published in a peer reviewed journal. But that's just me.

Who really wants to wait for western medical to come up with a billion dollars in studies and 50 years?

This description belongs to the western medical model. One you will never ever get. They are looking in the wrong direction.

This logic about true health and true cures has been written about for many decades. It is western medicine that is the big and absolute fraud doing the disservice of brainwashing people with ill-logic.

If you want to be cured, you need to trash the western medical paradigm on eczema - the whole of it is total garbage.

What you will get is my success story, in pictures, my children's success stories in pictures. My brother's success story in pictures. And my nephew's success in pictures.

Plus the reason, the logic, the progress behind it all. And the repeatability of such with other eczema cured people in pictures too.

PICTURES ARE GREAT ANECDOTAL EVIDENCE

This will be a learn by doing it yourself book.

Once you understand the logic and apply the principles to your life, you will be your own anecdotal evidence.

I wonder how dismissive one is with his own anecdotal cure.

You can peruse [Eczema Cure and Psoriasis Cure](#) now to have an insight as to where I will be coming from.

Some how the cure people come up with the same things in mind even if they come from different cultures and languages. See Dr Tsai from Japan with cure clinics around the world.
